

Assemblers

# Assemblers

οφθο  
hard  
cial

The normal school day will make social distancing harder for students.

## Solutions

---

- Bringing lunches to the classroom.
- Assemblies using video streams.

# Solution

---

Bringing lunches to the classroom.

Some schools bring breakfast to classrooms so why not do it for lunch?  
Schools can have a hospital like food system in which a cart with food is brought to each room and distributed to the students.

## Solution

---

Using live video for assemblies.

A large gathering of students will be more dangerous than a small gathering in each classroom.

Project Assembly is an education based video conferencing in which schools can host assemblies that would normally be in a packed
