Fulton Fundamentals
Find the Fulton Schools major that fits you!

Join us for a virtual workshop:
Discover the 25 innovative programs offered at the Ira A. Fulton Schools of Engineering.

Uncover the differences between engineering and technology disciplines and potential career paths.

Virtually visit research labs and meet Fulton School’s professionals, faculty, and students.

Exercise creative problem-solving skills through interactive learning modules.

Workshop structure:
- Participants get access to the Canvas course two days prior to the workshop.
- Flipped classroom approach — participants view videos on Canvas prior to the workshop.
- 4 hour workshop, 9AM-2PM (break from 11am-noon). no shipped materials for each session, all virtual activities.

Fall 2020 workshops:
Workshops are grouped by our six Schools of Engineering. You can review the different degree programs in each School by visiting engineering.asu.edu/undergraduate-degree-programs/.

- September 19 - School of Electrical, Computer and Energy Engineering.
- September 26 - School of Biological and Health Systems Engineering.
- October 3 - School of Sustainable Engineering and the Built Environment.
- October 17 - School of Computing, Informatics, and Decision Systems Engineering.
- October 24 - The Polytechnic School.

Cost is $30 per workshop
Register for more than one session!
- Students who register for 3 sessions will receive a Fulton School t-shirt & gift.
- Students who register for 6 sessions will receive a Fulton School t-shirt & gift, a Fulton Schools degree programs booklet and an ASU application fee waiver.

Register today!
- Students who are currently in 12th grade or currently attending a 2 year college institution/community college are eligible to attend our fall 2020 workshop sessions.
- Registration is now open at engineering.asu.edu/fulton-fundamentals.
- Questions? Contact us at 480.965.2272 or fultonschools@asu.edu.
